

NETBRAIN TECHNOLOGIES, INC.

OPEN SOURCE SOFTWARE NOTICE

NetBrain Software Version 7.0

NetBrain Technologies, Inc. (“NetBrain”) software contains, or relies upon, various open source software components originating from the open source software communities. These open source software components are distributed by NetBrain in accordance with the applicable open source license terms and conditions. By installing or using any of the software provided by NetBrain, you agree to be bound by the terms and conditions of all applicable open source software licenses. If you do not agree to be bound to such terms and conditions, you must immediately discontinue use of the software and remove all copies from your system. Where the specific license terms of the open source software component entitle you to receive a copy of the source code, that source code shall be made available upon written request from NetBrain. All requests for available open source software source code must be submitted in writing to either LegalNotices@netbraintech.com, or via U.S. postal mail service to “NetBrain Technologies, Inc., 15 Network Drive, Burlington, MA 01803, Attn: Legal – Open Source Request”. NetBrain reserves the right to amend the included open source software components listed below at any time without advance notice.

Open source software components currently distributed with or utilized by the NetBrain software version identified above:

Component	License
